16	Saffia	60	5.4	2.3	1.5	0.025	Yes		I will be allowed to in the future but not yet	Hard to say if she is majorly better as she had side affects due to too much given
17	Wisey	13.1	1.15	2.2	2.5	0.191		NA 148 k 5.0ratio 30	NA 151 k 4.8 ratio 31	Much better
18	Sam	3.18	0.6	4.7	1.5	0.471				Much better
19	Harley	70	6	2.1	25	0.357				Much better
20	Fabio	20	1.7	2.1	2.5	0.125		We haven't been given any results and he was checked on day 10 then when we went back on day 25 the vet said some level was 37? so wanted to wait another 5 days? But was then saying next dose would be 2.2 ml according to Dechras guidelines. Going back for another blood test on 3/6/16 and his second jab.	Sorry not given them	Much better
21	Bud	32	2.82	2.2	7.5	0.234			Not sure	30
